

Invitation to „Medical Creation Fukushima 2016“

In November 2016, the Fukushima Prefecture offers an attractive invitation program for producers of medical devices and instruments based in North-Rhine Westphalia. The collaboration between the two regions has been established with the „Regional Industry Tie-up Program“ (RIT) between 2013 – 2015. This invitation’s target is to further extend the relations on a corporate level. From now on, interested companies can apply for joining this invitation program. The invitation is for up to five days and comprises the flight to/from Japan, hotel accommodation, travelling costs in Japan, company visits, the arrangement of business meetings with potential Japanese business partners, and visiting the exhibition “Medical Creation Fukushima”. This trade fair is held at Big Palette Fukushima in Koriyama on November 25 and 26, 2016. If requested, the invited companies also have the opportunity to exhibit there free of charge!

Make use of this excellent opportunity – we are looking forward to receiving your application!
