

AGENDA

of the sixth meeting of the IVAM Focus Group Microfluidics
September 7, 2017, 11.00 - 16.00
TechnologieZentrumDortmund, Emil-Figge-Str. 76, Room 133,
44227 Dortmund, DE

- 11:00 Welcome and introduction of the agenda (D. Janasek)
Short Introduction of all participants
- Organ-on-a-chip – a system for nanotoxicity tests
T. Knoll, T. Velten, Fraunhofer Institute for Biomedical Engineering IBMT
- Microfluidic components for Organs-on-a-Chip
A. Kasjanow, micronit GmbH
- Applications of Organs-on-a-Chip
H. Becker, microfluidic ChipShop
- 13:00 Lunch break (lunch at own expense)
- 14:00 Summary of recent microfluidics activities (T. Dietrich)
- ISO Project on interface standardization
 - review of Compamed Spring Forum
 - activities in the field of lab technology (EGNATON)
- Discussion of presentation of the group, White Paper
- Discussion of joint activities
- B2B Meetings in cooperation with Medical Valley
 - International MicroNanoConference
- Information on microfluidics activities planned by IVAM
- COMPAMED
 - Microfluidics in medical technology – certification issues (IVAM Focus Group Medical Technology)
- Miscellaneous
- Topics, organization, date and place of next meeting
- 16:00 End of meeting
