

Profile Production Operator Photonic IC modules

Company profile:

LioniX International is a leading global provider of customized microsystem solutions, in particular integrated photonics-based, in scalable production volumes. We provide customized solutions for OEM's and system Integrators, by vertical integration, from design to fully assembled modules. We continuously maintain our technology leadership secured in a strong IP position.

LioniX International B.V. is a private company and has been established in April 2016, following the acquisition of SATRAX B.V., XiO Photonics B.V. and LioniX B.V., which initiated the technology development of photonic integrated circuits for a suite of applications since 2001. Currently LioniX International employs nearly 50, highly educated people, and its management has experience in the micro/nano system technology for decades.
