Singapore Business Forum 2012
"Medical Technology Products – Development, Manufacturing and Processing of
Materials and Components"

Exhibition MEDICAL MANUFACTURING ASIA 2012

■ SEPTEMBER 13TH 2012 at Suntec
Singapore (Singapore)

Would you like to get in contact with the Asian and Singaporean industry and research partner? Then feel invited to join the Singapore Business Forum, which is organized by IVAM for the first time, at the MEDICAL MANUFACTURING ASIA 2012 exhibition. The exhibition and the forum take place from September 12th to September 14th at Suntec Singapore.

The Business Forum, which expects to be a great success with experienced international speakers and participants, is organized in collaboration with the Messe Düsseldorf Asia (MDA) und Singapore Precision Engineering & Tooling Association (SPETA).

There are still vacant timeslots for presentations on the Forum. Presentations should be held in English. The presentation time is limited to 15 minutes plus 5 minutes for Q&A. As a high light: **The travel costs (economy) and accommodation (for 4 nights) at the conference Hotel for one person will be reimbursed by the MDA/SPETA organization.**

Further there is booth space available for interested participants for the exhibition.

For your participation in the Forum please register **as soon as possible** by sending the fax form below back to IVAM: **+49(0)231 9742 150. Places are limited. Deadline is the 18th of May 2012.**

Asia – The Emerging Hub for the Manufacturing of Medical devices & equipment

Rising demand for medical services and accelerating progress in manufacturing technologies are opening new sectors for medtech manufacturing growth. An unbeatable combination of research funding, presence of medtech giants such as Becton Dickinson, Baxter and MDS SCIEX just to name a few in addition to a growing pool of medical and engineering talent makes Asia the ideal centre for components assembly. Medical technology giants setting up production facilities in Asia, provides supporting contract manufacturer a golden opportunity for skills transfers and business opportunities.

MEDICAL MANUFACTURING ASIA 2012 provides a platform to showcase the latest advances in medical grade materials, manufacture and assembly, computer-aided design and manufacturing, production equipment, automation and controls, packaging materials and machinery, medical device software and validation solutions, sterilization systems, and a full range of contract service providers.

In addition to the exhibition, we will have a conference to bring together manufacturers, suppliers, regulators and researchers to give participants an insight into the technical developments and trends: e.g. Product design, materials, equipment, etc. in the manufacturing of medical devices.

The conference focus on the following themes:

- Manufacturing opportunities & challenges: global perspectives
- Medical device: from ideation to manufacturing
- Emerging technologies for medical devices fabrication

A one-day program targeted for the 13th of September 2012 is in preparation.

Please register soon.
